Volume XLI OMAHA UNIVERSITY No. 21
OMAHA, NEBRASKA, FRIDAY, MARCH 16, 1962

Doxon, Wallace Solo In Wed. Concert

Jana Doxon and Gary Wallace will solo in next Wednesday's Omaha University Band concert, "Selections from Broadway musicals."

Jana is a freshman music major, and musicals are not a new experience for her as she has performed in such productions as "The King and I," "South Pacific" and "The Medium."

She is presently a soloist at the Unity Church, and plans on a teaching career.

Gary is also an "old hand," having sung on the "KMTV Talent Show," appeared in the Show Wagon, and had parts in "Carousel," "Die Fledermaus," "Finian's Rainbow" and "Most Happy Fellow."

Selections to be heard on the OU concert will include numbers from "Gypsy," "Camelot," "Gigi," "South Pacific" and "My Fair Lady."

The concert will start at 11:30 a.m. and will end in time for 12:30 classes. It is open to all students, faculty members and guests (no classes will be dismissed).

Debalers Successful

Omaha University speakers won three of the seven awards presented to discussion division entrants of the Nebraska Intercollegiate Forensic Association State Tournament held in Lincoln last weekend.

Winners were Ron Bojanski and Bill Stillmoch in the Senior Division.

Larry Hicks won his award in the Junior Division Discussion.

Although OU debaters won four of their ten debates in the tournament, the wins were not enough to "bring home the silver."

Students looking through the card catalog often overlook (or underlook) this vase valued at \$96. The vase was donated by the Cambridge Glass Co. after a glass exhibit at OU 10 years ago. It carries the title "Birds in Flight."

Official Notices

All material for the spring issue of Grain of Sand must be submitted to Dr. Ralph Wardle, chairman of the English department, by Friday, March 23. Dr. Wardle said essays and short stories under 2,000 words and poems under 40 lines will be given preference.

The Young Democrats will meet Wednesday at 3:30 in Rm. 302 of the Student Center. All interested students are invited to come.

There will be no TGIF dance today.

A TGIF dance will be held next Friday from 3 to 5 p.m. in the OUampi Room.

Omaha University student Rich Clayton and his "Rumbles" will play, March 23.

The next movie to be shown in the Student Center is "North By Northwest." The movie starring Cary Grant is scheduled for April 2.

Bootstrappers Graduate 125

Approximately 125 armed forces members are completing degree requirements at OU today. The majority of this group consists of on-campus bootstrappers, but also included are several military personnel who have been enrolled in the University's resident programs at Offutt and Lincoln Air Force bases.

Special graduation exercises are not scheduled for this group; however, those desiring to receive their diplomas in person at the June graduation ceremony may do so by notifying the Registrar not later than May 5. Diplomas will be mailed in June to graduates unable to attend the year-end commencement.

Through "degreés" to the wives of service members earning degrees at OU. These diplomas, attesting the school's recognition of the assistance given and sacrifices made by the bootstrappers' "better halves," may be picked up today by this week's graduating class at the back counter of the CAE office, Room 182, Adm. Bldg.

OU Journalists Host Conference

Approximately 200 entries from 13 high schools will attend the University of Omaha's 1961-62 high school journalism Press Conference Thursday.

The journalism department, Student Publications and the Press Club will sponsor the affair.

Members of the staffs of the Tomahawk and Gateway will conduct a panel discussion during the afternoon. They are: Linda Strnad, former Gateway editor; Karen Pope, Tomahawk editor; Bill Vogt, Gateway editor; Sue Kelley, Gateway reporter; and Gail Grove, former Gateway editor.

Awards for material printed in the school's papers will be presented at a dinner in the Student Center. The various papers will be competing for the best news, sports and feature stories, the best editorial, news photograph, and front page.

Deadline for Entering Contest Is March 23

The deadline for entering the Philip Sher Essay Contest has been set for Friday, March 23.

The theme of the annual contest is Racial and Religious Mutual Responsibility.

Essays must be completed by April 4. The winner will be announced at the Honors Convocation on April 13, and will receive a \$250 cash prize.

Interested students may obtain more information by picking up a brochure in the office of the Dean of Student Personnel, Room 240 of the Administration Building.

Kent McCallum Honored; Has Choice of Fellowships

Three fellowships mean three choices for D. Kent McCallum, 21, Omaha University senior.

Monday, Kent was officially awarded the Woodrow Wilson Fellowship which pays full tuition and \$1,500 for living expenses for one year.

From the approximately 10,000

science and plans to teach history on the college level.

His activities at Omaha U. include vice president of the Senior class, of Alpha Phi Omega, and of Pi Kappa Alpha Fraternity. He also is a member of the Inter-Fraternity Council.

Last spring Kent received a scholarship from the Pen and Sword society which paid tuition for one year.

Sharon, his wife, is a sophomore at OU and is in the College of Liberal Arts.

Two former Woodrow Wilson Fellowship recipients from Omaha U., Virginia Frank and Rosalie Cohen Saltzman, are now teaching here in the English department. They both received their Master's degrees under the program.

In past years OU has had six Woodrow Wilson winners.

McCallum

nominated, 1,058 Woodrow Wilson Fellowships were awarded to senior University men and women in 46 states, Canada, Puerto Rico, Panama, and the Canal Zone.

The University of Connecticut has offered him a National Defense Graduate Fellowship which pays over \$6,000 for three years plus an additional allowance of \$400 a year for each dependent.

Kent is also an alternate for the National Defense Fellowship at Tulane University.

He is the first student at OU to receive both the Woodrow Wilson and the National Defense Fellowships. He doesn't know as yet which of the fellowships he will accept.

Kent is majoring in political

Press Club Elects Officers, Plans Trip

Officers have been elected in the recently-formed University Press Club. Gail Grove was named president, Arlo Grafton vice president, Malanie Jeub secretary, Tom Ash treasurer and Mary Jane Cooper historian.

Paul V. Peterson, Associate Professor of Journalism and head of the department, and Donald E. Kemp, Instructor of Journalism, are sponsors.

Plans are currently being made for a Press Club trip to Chicago during spring vacation. Members will tour several large newspapers while there.

Frosh Honorary Takes 29 Girls

Alpha Lambda Delta, the freshman's women's honorary, sent out letters of acceptance to 29 potential members last week.

A 3.5 for the first semester or an accumulative average of 3.5 for the year is required for acceptance.

The following girls received letters of acceptance: Teddy Backstrom, Pat Bowman, Deanne Brezacek, Trudy Burgren, Joyce Borland, Janine Christensen, Jana Doxon, Judy Eichhorn, Joan Heu-winkel, Sheri Hronek, La Donna Johnson, Barbara Keast, Sharon Kay Kent and Janet Kroeger.

Others will be: Susan Krogh, Ruth Meyers, Cynthia McMillan, Barbara Miller, Joanna Poulson, Wilma Poulson, Carol Sue Ralston, Judith Rohlf, Lori Schmu-dafer, Sharron Scudder, Roni Meyer, Barbara Thomsen, Kathleen Welniak, Judy Williams and Sharon Zager.

If any freshman, not appearing on this list, has a 3.5 for the first semester, then report to Dean Elizabeth Hill.

Ratti Officially Receives Rank

Lieutenant Colonel Emilio P. Ratti was officially promoted to that rank yesterday.

Colonel Ratti is the AFOTC Director of Instruction, and is the third officer to receive a promotion while being a member of the detachment staff, President Bail told of the promotion on March 5.

This is Colonel Ratti's second tour of duty as a Director of Instruction. He was stationed at the University of Iowa, from 1952 to 1957.

During the war the colonel served as a bomber pilot on Guadalcanal where he flew 57 missions against the Japanese in the South Pacific.

In 1950 he returned to school at Butler University and received his BA degree. In 1957 he completed his college work, attaining his MA degree in Education at the State University of Iowa.

Colonel Ratti's assignments have taken him to all points of the world. He has been stationed in India, Trinidad, and the British West Indies, to mention a few.

Otis Air Force Base, near Cape Cod, Mass., was the Colonel's last assignment. He was the Executive Officer for one of the Air Early Warning Sqdns.

While with the AEW Sqdn. Colonel Ratti was sent to the Boeing plant at Seattle, Washington, to learn the many facets of the Bomarc interceptor mission.

Colonel Ratti has been on active duty for more than 19 years, and was a major for slightly more than 11 years.

Faculty Trio First Heritage Program

Sunday evening at 7:30 in the Student Center, the University of Omaha's music department will present the first in a series of concerts centered around the American Heritage in the field of music. These concerts are free to the public.

The first program will feature the faculty trio of James Taggart, James Peterson and Helen Bell. They will play chamber music.

Professor William T. Utley, director of the sixth annual series, said that the purpose of the program was to promote culture in the student body and to make the students aware of our American heritage.

This year's series is divided into six programs depicting six kinds of American music, including everything from the American opera to jazz.

Folk music will be the second in the lecture-concert program. On April 14, Win Stracke, founder of the "Old Town School of Folk Music," will appear in the Administration Auditorium at 8 p.m.

Athletes Show Good Academic Averages

By TOM ASH

Many times the college athlete is thought of as a big dumb animal who is in school for the sport.

One should not stereotype athletes as poor students just because they are athletes.

Granted, there are schools in this country who overemphasize

athletics and subsidize the athlete. At such institutions it is easy for some baboon to capitalize on his muscles and sluff his way through to join the ranks of the higher educated.

Omaha University is not such a school. Here the athlete must make an academic as well as an athletic contribution. He is granted no special privileges and

is governed by the same set of rules as every other student.

And the OU athlete is faring well in the classroom.

After compiling grades of all athletes competing in fall and winter varsity athletics, it was found that the weighted average grade point for the first semester was 2.2963.

This includes all the athletes who competed in football, basketball, wrestling and indoor track, except those who dropped from the teams or are now in school.

Registrar Alice Smith said that the last time the University compiled all-school grades, the all-men's average was 2.02 and the all-university average was 2.16. This was the first semester of the 1959-60 year.

Miss Smith said she believes the athletes' grade point average is a "little better" than the men's average again this year.

Keep in mind the athletes received these grades during the semester they were competing and practicing two or three hours each afternoon.

Some athletes on campus are also making their mark activity-wise. Al Taylor, a four-year football guard, is president of the Student Council, past junior class president, president of ODK, an honorary fraternity, and commander of the ROTC drill team.

Two other athletes are also members of the council. They are baseball-footballer Kenny Allen and wrestler Chuck Saxon. Allen was named Typical Freshman last year, and Saxon received the same honor this year.

Jack Peterson, giant tackle on the football team, sports an outstanding grade average and is vice president of Sigma Phi Epsilon Fraternity.

In order to stress good grades, football coach Al Caniglia said: "We always check a prospect's academic record in our recruiting program." And, we don't fool with him if he is a poor student." He also said that if an athlete is on scholastic probation, his grant-in-aid is revoked.

Track Coach Lloyd Cardwell pointed out that most of the athlete's low grades are gotten as freshmen when they get in the wrong courses. He said if they stick around and get into the right field, they usually do all right. He added: "This is true of other students, too, but a few bad grades among athletes brings the average down more because of the limited number."

Assistant Football and Track Coach Don Watchorn also noted that the most reliable athletes also do better in the classroom. The more erratic players are the poorer students.

Waakiya Seeks 'Brain Bowlers'

Waakiya, the senior women's leadership honorary, is sponsoring the "Brain Bowl," open to any under-graduate students who are interested.

Undergraduates may enter individually or in teams of four according to their particular field. The questions will be selected from the areas of the physical sciences including math, social sciences, humanities and current events.

The OU "Brain Bowl" is patterned after TV's "College Bowl" and, like it, depends on quick recall answers.

The competition itself will take place March 27 in Room G13 of the Applied Arts building and will consist of a half hour battery of toss-up and bonus questions.

The "Brain Bowl" will begin at 3 p.m., and the tentative tournament dates are Mar. 27, Apr. 3, 10, 17 and the finals on Apr. 24.

Applicants may leave their names, phone numbers, and specialties at the Student Center information desk or the GATEWAY office by Mar. 20.

Unconscious driving leads to unconscious drivers.

Toolers Convene

Engineering students at the University of Omaha are invited to attend the Second Annual Tooling Conference, March 24.

Professional tool engineers, designers, and manufacturers will attend the 8:30 p.m. to 3:30 p.m. conference in the Gene Eppley Library.

The event is co-sponsored by the American Society of Tool and Manufacturing Engineers and the Conference Division, College of Adult Education of OU.

The life you save, may be your own.

Wednesday morning Prof. Sylvester Williams, head of the engineering department, was made an honorary Bootstrapper. Professor Williams on the left was presented with a certificate and a briefcase while members of the class looked on. The class felt he deserved the honor because "he has a sincere desire to make better citizens of his students." According to the class Professor Williams is one of the most dedicated teachers they have had. They feel he is vitally interested in the individual student.

Career Cues:

"The broader your knowledge, the greater your chance of success!"

Edwin J. Ducayet, President
Bell Helicopter Company

"As I look back, graduating from college in the depth of the depression was a blessing in disguise. It was difficult to get a job, and even more difficult to hold it. It proved to me early in life that to succeed in business requires constant struggle.

"I found that the truly successful individual never stops learning, that a formal college education is the foundation on which we continue to build the knowledge and experience required to get ahead.

"Even in today's age of specialization, a man eventually reaches a point where breadth of knowledge is necessary. The engineer must understand accounting and marketing. The marketing man must know his product. The financial man must be sympathetic to engineering development and sales programs. Management must have a working knowledge of all phases of the complex and highly competitive business world.

"Therefore, even though specializing, a student should make his college curriculum as broad as possible, and diversify his outside activities. Authoritative surveys have shown that only a small percentage of individuals end up in the field in which they specialized in college.

"Widen your world. Broaden your interests right now. Since graduation from college I've discovered that those who are really succeeding today are the ones who do more and keep on learning from what they do. The broader your college interests are now — the steadier your ladder of success tomorrow!"

Edwin J. Ducayet is president of one of the world's largest helicopter manufacturing firms. His company's products are used in 52 countries for a multitude of military and commercial applications. A resident of Fort Worth, Texas, Ed has been a Camel smoker since his undergraduate days at M.I.T.

Editorial Comment

The New Role of the Scientist

By Mike Dugan

In reply to the many comments and questions concerning the editorial titled "Preserve Posterity" in the March 2 edition of the 'Gateway,' I feel that it should be pointed out that I am not 'anti-science' in any sense of the word.

Secondly, an editorial should be read for the ideas and information it conveys to the reader, not to be considered final authority on the subject.

The very nature and purpose of an editorial is subjective, biased and communicates the writer's opinion only. You may agree or disagree—this is your choice.

The editorial, "Preserve Posterity," commented on the importance of the preservation of our way of life through the continuance of those educational and socio-political devices that have been a common denominator in the construction of civilization.

I based my theory on the premise that the sacrifice of these institutions for those based on strictly scientific endeavor by our educators, intellectuals and students, could very well destroy the spirit and foundation of democracy.

Science students often complain that study in the liberal arts is not necessary for them because their work will deal only with science and matter.

What many student do not realize is that this profession involves an understanding of those institutions that they are able to change or destroy. He must be able to communicate, offer advice and assist in long-range and short-range decisions to those non-scientific administrators who have had the duty of making all decisions in the past.

Most of all, the scientist can give these people foresight.

C. P. Snow, author of "Science and Government," points out that, "... administrators are by

temperament, active men. Their tendency, which is strengthened by the nature of their job, is to live in the short-term, to become masters of the short-term solution."

A scientist realizes his subject is moving in time. He has the experience of looking into the future.

Let him convey his information to the administrators.

With these points in mind, the student of science at this university or any other educational institution can realize the importance of studying and understanding non-scientific phenomena and better prepare himself for his future responsibilities. That future may very well be concentrated on less 'aggressive' scientific development and lean more towards 'preventive' science in general.

Today, a tolerance for incompatible bedfellows is only partially attainable, each of them (scientist and administrator) within his personal limitations. But an excessive fastidiousness about others' idiosyncrasies paralyzes any collective action to work together.

The student of science must realize that the barrier which has kept scientists and administrators apart in the past, must be dropped and together form a coalition that allows a free-flow of ideas, an exchange of information and most important—an appreciation of the new role of science as the determining factor for our existence, co-existence or non-existence.

Letters to the Editor: . . .

Thanks OU

Dear Editor:

I, a Bootstrapper, came to OU last September quite a green horn to university life. After six months and now ready to depart, I'm still somewhat green — but mostly with envy of those students who are getting a full four years of resident college education.

My short stay at OU has been most interesting and rewarding. Like most students I guess, I could have studied harder and learned more. However, not all of the professors' words and ideas have fallen on bone. And, there's no doubt that some light acquired here will be reflected subsequently in my approach to military tasks.

It has been to my advantage to associate with or "rub elbows" with the university public particularly the students and professors. And, in spite of desires to return to job and family; I have regrets about leaving OU.

May I extend my deep appreciation to all school faculty members and personnel who have made Bootstrappers welcome. I hope that future actions and activities will bring all students to closer communication with the common cause at OU.

Frank M. McQuaid.

Morrison to Speak On Trip to Germany

Arrangements are being made by the Omaha University German Club to have Governor Morrison speak on his recent trip to Germany.

Enjoyed 'Angel'

Dear Editor:

As a theatre-goer, I want to thank Dr. Edwin Clark and the University Players for their unusually good production of "Look Homeward, Angel." Much of the success, of course, is due to their talents and efforts. Another factor, I think, was the actual choice of the play. It was a good one. I hope we students can expect more plays of its kind. Perhaps the University Players will soon offer Graham Greene, John Osborne, Arthur Miller, Jean-Paul Sartre, and Tennessee Williams? V. E. Barnett.

YD, YR Seeking National Figures

The Young Democrats are considering the inviting of several national political figures to speak at Omaha University.

Dr. Paul Beck, YD advisor, said one of those who may be invited to OU is former President Harry Truman.

Several other prominent Democrats may be asked to appear on campus, Dr. Beck said this week, but plans weren't definite.

The OU Young Republicans had received no reply Tuesday from Sen. Barry Goldwater.

Last week the YR's sent a letter to the Arizona Republican asking him to appear at OU while he is in Nebraska for a speech at the GOP regional convention in Lincoln March 30.

Doc Evans Band "Arrived" Friday

Rag-time and Blues music dominated the Conference Center Auditorium Friday night as Doc Evans and his band captured a near-capacity crowd.

In spite of the soaring temperature in the Center, the drowsy group let the men in the band know they had "arrived" when they played their third tune, "Aintgonna Give Nobody Anyofmy Jelly Roll."

What was billed a spectator show turned into audience participation with toe-tapping, finger-snapping and spontaneous vocal reactions.

Origins of jazz and early personalities in the field were discussed by Evans. According to Evans, the first jazz was done in a slow, melodic style.

This is not to say that all music of the early 20's was slow as was demonstrated by playing, "Dum'Em Out Blues." This faster pace was called the "stomp." They reproduced music as it was done by Louis Armstrong, Scott Joplin, W. C. Handy, Fats Waller, and Buddy Bolton.

Let's Display Our Trophies

By Lloyd Harmsen

OU's athletic history is by no means the University's biggest achievement. We have had some good years and quite a few bad ones, too. But one thing is sure, a lot of effort has been put out over the years by quite a few people, coaches and athletes alike.

Where are the records of these achievements? Most of the material rewards, in the forms of trophies, are hidden in various offices in the sports department. Hidden may not be the right word in this case. Athletic director Virgil Yelkin says he has

been trying for years to get these memorials of past achievements on display, but with little or no luck. He said it would be nice if a senior graduating class would adopt and house these trophies in cases as their gift to the University.

The big stumbling block, however, as in so many undertakings, is the cost. For instance, the cost of the present case in the Student Center was \$1,314. The cases houses 15 trophies.

Other departments in the school undoubtedly have trophies on plaques, etc., they would like displayed also.

"Tareyton's Dual Filter in duas partes divisa est!"

Slugging Junius (Pretty Boy) Cassius takes off the brass knucks to enjoy his favorite smoke.

Says Pretty Boy, "Ecce Tareyton, one filter cigarette that really delivers de gustibus. Try Tareyttons. Next time you buy cigarettes, take a couple of packs vobiscum."

Question of the Week

By FRAN CAMPBELL
Roger Brown, Photographer

Do you think the bowling alley will be a significant contribution to the University?

Jim Stanek, junior, engineering: "I don't think it will be a significant contribution, but I feel it will serve a definite purpose. The students will probably form leagues and use the OU lanes instead of outside ones. In this way it will help to keep the students on campus."

Jim Stanek,
junior,
engineering.

Sue Fay, junior, homemaking: "No, because there are enough bowling alleys around town, and enough things to do on campus. More people should spend their time studying."

Sue Fay,
junior,
homemaking.

Jerry Bozeman, Bootstrapper, business: "I view of the fact that bowling is becoming so popular as a sport, I feel that it is an asset. However, since I am new to the school and unfamiliarized with the entire situation, I hesitate to give an opinion."

Jerry Bozeman,
Bootstrapper,
business.

Priscilla Meinzer, freshman, business: "Yes, because it should help keep students on campus, and it might help alleviate the crowded conditions in the Ouampi Room."

Priscilla
Meinzer,
freshman,
business.

Patricia Pedersen, freshman, liberal arts: "Yes, I think it is a definite contribution because it fills a gap in the recreational facilities."

Patricia
Pedersen,
freshman,
liberal arts.

Burl Anderson, sophomore, liberal arts: "No, because the money could be better used to acquire new faculty members or to raise the inadequate salaries of the present ones. A university is supposed to be an institute of higher learning, not a playground or social club."

Burl
Anderson,
sophomore,
liberal arts.

Julie Klingforth, senior, psychology and sociology: "I think that anything that will draw some of the boys away from the pool tables is a good thing."

Julie Klingforth
senior
psychology
sociology

Food Service Reveal Goals

By Ernie Gruber

There are many personal comments made about the food served in the Ouampi Room regarding quality, quantity and prices, but little is known and said about the administrative staff in charge of the food.

The Food Service Department at OU is under the management of Mrs. Carol Lee Graham.

Mrs. Graham is responsible for purchasing foods, watching inventories, checking and controlling food, labor and other overhead costs.

In addition to technical food experience and know-how, Mrs. Graham must have a knowledge of management skills and techniques. Mrs. Graham stated: "The objectives of the Food Service Department are:

1. To sell foods that are of good quality, properly cooked and presented.
2. Prompt and courteous service.
3. Reasonable prices consistent with the service offered.
4. Well balanced, varied menus.
5. Adequate facilities.
6. High standard of cleanliness and sanitation.

Comments made by those who eat regularly in the Ouampi Room reveal a dissatisfaction in the quality and quantity of the food sold.

The best selling product is the Basket Burger, yet this is the item that receives the most criticism.

With the threat of food prices going up, dissatisfaction will also go up unless the quality and quantity of the food improves.

If the negative comments about the food served in the Ouampi Room were brought to the attention of the Food Department's staff, then any complaints might be corrected.

The automatic dish washing machine cannot handle the increased number of dirty dishes. Consequently, this is one of the reasons why everyone is drinking milk out of a carton with a straw instead of out of a glass.

There is a definite need for a second serving counter, as evidenced by the long line waiting to be served. This problem, along with others, might be solved by further expansion of the Ouampi Room.

Fads, Fashions And the Twist

By Steve Gould

Fads, it seems, are very influential in the development of the modern college student. Even Omaha University has been affected by "the latest."

Probably the major recent change, or trend, has been in the field of dancing.

No longer do fowl-dancers and dancers cover the floors with their chicken-like gyrations, bending their toes and breaking their heels.

Strollers are now thought of as the hand-in-hand couple meandering through the snow-covered fields surrounding the OU campus. Those persons who wobble between two lines of aborigines now are either pledges or going through the latest fertility rites.

Of course, the Charleston is seen occasionally, but now that particular group of arm-and-leg-swinging motions is recognized as "progressive" dancing to be performed by decadent radicals.

What strikes this writer's funny bone most are some of the inane phrases fostered by El Twist.

What does "you have the most beautiful twisting eyes in the world" mean? Would your beloved feel complimented if you said "... and maybe we can get Chubby Checker to marry us."

But maybe "that dance" will raise this nation's standard of morality. This is illustrated by the phrase "Why don't you come over tonight, baby, and we'll do the Twist."

Even the social graces have been put under the thumb of the Twist.

Some chairs now in production have enabled young ladies to discard the unbecoming, traditional manner of seating themselves. They can now slither through coil springs on their way to and from the evening meal, or television, or their studies.

When removing one's gloves the fingers must twist; when chewing one's food the lips must twist.

Probably the best way to determine whether a person is socially accepted or not is to watch the method with which he greets his friends—or anyone for that matter.

Instead of the old handshake or clap-on-the-back which have been defunct several years, instead of the more modern Beat fashion, the Twist greeting is The Way.

(In the Beat Greet, the greeter's lean, haggard, bearded body must lean insolently against the nearest door jam or wall while he says, suprisingly enough, "Like, greets, fellow Beats.")

No, twisters, the Beat Greet is dead, the Twist's method replacing it.

In the Twist greeting, the greeter approaches the greeter, throws his half-bent arms violently side to side, wiggles his hips rather obtrusively while he says, suprisingly enough, "Hi!"

Debate Tourney At OU, Mar. 15-18

By John S. Kalgert

This year's debate topic, "Resolved that labor unions should be under the jurisdiction of anti-trust legislation," will be under discussion by a minimum of 225 college debaters at Omaha University March 15-18.

Twelve states will be represented here for the "Omaha University Cross-Examination Debate Tournament."

Cross-examination debates differ from the ordinary in that the participants are given an opportunity to question the opposition immediately following each speech.

As in the ordinary debate, two two-man teams, one affirmative and one negative, meet to argue the resolved point. However, in the cross-examination debate, the order of presentation is changed.

Both types of debates have two periods. One devoted to constructively stating the point and the second to refuting the opposition.

In the ordinary debate the first speaker for the affirmative is followed by the first speaker for the negative. Then follows the second speaker for the affirmative and the second speaker for the negative. Rebuttal follows the same general pattern but the order is reversed, starting with the negative.

Cross-examination debates begin exactly like ordinary debates, with the opening statements of the affirmative. But, instead of negative arguments following the opening affirmative, the second negative speaker questions, or cross-examines affirmative's opening remarks.

Then, based on the replies to the questions, follows the first negative argument.

The first affirmative speaker then gets his chance to cross-examine the negative, whose remarks were based directly on affirmative's own statements.

Loans Available To OU Students

Loans, either long or short term, are available to OU students.

The major long-term loan is the National Defense Student Loan sponsored by the United States government. This loan is repaid after graduation and available to juniors and seniors in good standing. Priority in these loans is given to students in teaching and the sciences.

The major short-term loan available to OU students is the Ak-Sar-Ben Loan Fund. This loan is made on the installment plan basis and must be repaid within the semester. No interest is charged on this loan and is open to students in good standing.

Numerous other smaller scholarships, grants and loans are available to students in specific colleges.

Application for all financial aid is made through the office of Student Personnel.

Interested students should contact Dean Donald Pfisterer for further information.

Greeks Wield Brushes

The Greeks were at it again, and operators of the Christ Child Center were happy to see it. This was the week when Greeks put on their sloppy clothes and swung the paint brushes.

The "Amateur Interior Decorators" were busy painting rooms at the Center.

Sloppy attire was a must while these amateurs painted because of the poor ability of some Greeks to slap paint on the wall. It seems that some "accidental-

ly" missed the wall and painted their co-workers.

As William Gerbracht put it, "At the rate we're going we'll never get done."

Although the painters are on an amateur standing and much paint is slopped on one another, the finished job is one well done.

Tonight the Greeks will cap of the week at a Banquet in the Student Center Ballroom. Dancing will follow the dinner with the Dave Davich Band.

On Campus with Max Shulman

(Author of "Rally Round The Flag, Boys", "The Many Loves of Dobie Gillis", etc.)

SHAKESPEARE DOESN'T LIVE HERE ANY MORE

A recent and most heartening development in American college life has been the emergence of the artist-in-residence. In fact, the artist-in-residence has become as familiar a sight on campus as Latin ponies, leather elbow patches, Rorschach tests, hula hoops, and Marlboro cigarettes.

And we all know how familiar that is—I mean Marlboro cigarettes. And why should it not be familiar? Why, where learning is king, where taste is sovereign, where brain power rules supreme, should not Marlboro be everyone's favorite? The same good sense that gets you through an exam in Restoration Poetry or solid-state physics certainly does not desert you when you come to pick a cigarette. You look for a flavor that is flavorful, a filter pure and white, a choice of pack or box, a lot to like. You look, in short, for Marlboro—and happily you don't have to look far. Marlboro is available at your friendly tobacconist's or vending machine, wherever cigarettes are sold in all fifty states and Las Vegas.

But I digress. We were speaking of the new campus phenomenon—the artist-in-residence—a man or woman who writes, paints, or composes right on your very own campus and who is also available for occasional consultations with superior students. Take, for example, William Cullen Sigafos, artist-in-residence at the Toledo College of Belles Lettres and Fingerprint Identification.

As we all know, Mr. Sigafos has been working for many years on an epic poem in rhymed couplets about the opening of the Youngstown-Akron highway. Until, however, he went into residence at the Toledo College of Belles Lettres and Fingerprint Identification, his progress was not what you would call rapid. He started well enough with the immortal couplet we all know: *They speed along on wheels of rubber, rushing home in time for supper...*

Then Mr. Sigafos got stuck. It is not that his muse deserted him; it is that he became involved in a series of time-consuming episodes—a prefrontal lobotomy for Irwin, his faithful sled dog; fourteen consecutive months of jury duty on a very complicated case of overtime parking; getting his coattail caught in the door of a jet bound for Brisbane, Australia; stuff like that.

He was engaged in a very arduous job in Sandusky—posing for a sculptor of hydrants—when an offer came from the Toledo College of Belles Lettres and Fingerprint Identification to take up residence there, finish his *magnum opus* and, from time to time, see a few gifted students.

Mr. Sigafos accepted with pleasure and in three short years completed the second couplet of his Youngstown-Akron Turnpike epic: *The highway is made of solid concrete and at the toll station you get a receipt.*

"What is truth?" said one.

Then a few gifted students came to visit him. They were a prepossessing lot—the boys with corduroy jackets and long, shaggy beards; the girls also with corduroy jackets but with beards neatly braided.

"What is truth?" said one. "What is beauty?" said another. "Should a writer live first and write later or should he write and do a little living in his spare time?" said another.

"How do you find happiness—and having found it, how do you get rid of it?" said another.

"Whither are we drifting?" said another. "I don't know whither you are drifting," said Mr. Sigafos, "but as for me, I am drifting back to Sandusky to pose for the hydrant sculptor."

And back he went, alas, leaving only a fragment of his Youngstown-Akron Turnpike epic to rank with other such uncompleted masterpieces as Schubert's Unfinished Symphony, the Venus de Milo, and Singer's Midgets.

© 1962 Max Shulman

Take cheer, good friends, from one masterpiece that is complete. We, refer, of course, to Marlboro cigarettes. Filter end and tobacco end are both as good as tobacco artistry and science can make them.

'Yrabil' Reveals Backward Students

The staff members at the library are probably beginning to think that the University has quite a few "backward" students.

The reason for this is a library assignment which was given to some English 112 students.

A few of the more unusual things which the students were asked to find in the library was an author's name in the Reader's Guide which most closely matched the spelling of their own name — when their own name was spelled backwards. Also, they were asked to find the author of a book whose title was "nowhere" — spelled backwards, of course. Miss Ellen Lord, the librarian, said students were surprised to find there is such a book—"Erehwon" by Samuel Butler.

Miss Lord added that there were many looks of relief when the answer searchers were informed that to find out the number of magazines the library subscribes to, they didn't have to count them all; they just had to ask to find the magic number of 962.

The library hasn't gotten around to checking, but they are wondering how many of that English class took out library cards when they found that one of the questions was, "What is your library card number?"

On a more academic note, Miss Lord said that there were more books checked out during the week of February 19-24 than had been checked out during the entire first month that the new building was in use, which was January of 1956. During that week in February, nearly 1,000 books were checked out a day, including Saturday.

Canterbury Club

The Canterbury Club will meet March 18 at 6:30 p.m. at Trinity Cathedral, 18th and Capitol Ave.

AV Lab Works Behind Scenes

When you see a movie in the classroom, do you ever stop to think of the background and planning that goes into the showing of the film?

Most of the behind-the-scenes work is done by the Audio-Visual Department located in the Gene Eppley Library.

This department may well be termed the most useful on campus. The primary purpose of audio-visual materials is to assist in the communication of ideas and in the improvement of instruction.

The University of Omaha, like many of the institutions of higher learning, has developed a centralized resource pool of audio-visual materials, services, and facilities that is aimed at promoting the most effective utilization of teaching materials in the most economical manner.

But the department does much more than this. On display in the audio-visual department are teaching aids that are invaluable to the student teacher. Students may see movies that they missed due to class absence.

In the language laboratory, language students receive instruction and assignments through tape recordings. Recordings are also available of lectures given on campus, including the "American Heritage" and "Legacy of Man" series. An extensive record collection is also among the department's assets.

Projectors and screens for classroom visual materials are obtained from the department. In addition to ordering the films,

Sigma Kappa Sorority Will Hold State Day

Sigma Kappa sorority will hold its annual State Day on March 18 at the Kiewit Plaza from 10 a.m. to 4 p.m. Attending the event will be the chapters from Omaha and Lincoln, alumni and the Mothers' Club. Guest speaker will be Dr. Paul Kennedy.

it is also equipped to provide a portable public address system, record players and training in the operation of the equipment.

In the Graphics Department, a subdivision of Audio-Visual, art work for various departments is kept. The department is also responsible for the display windows in the Conference Center and the Administration Building.

Besides supplying visual aids and services, the department aids students and faculty in making charts, posters, slides and bulletin boards.

Personnel of the Audio-Visual Department include: Ronald Pullen, chairman; Dee Ericson and Betty Lutz.

West Point Tourney Will Be Held at OU

Omaha University will be the scene of the West Point District Debate Tournament, Mr. Don Orban, director of forensics, announced Wednesday.

The winners of the district tournaments will travel to New York to compete with the military academy cadets.

PiKA Elects Seddon, McCallum to Offices

Delta Chi chapter of Pi Kappa Alpha fraternity elected new officers at their March 6 meeting.

Serving as president is Dick Seddon, assisted by Lynn McCallum, vice president; Bruce Bressler, secretary; Everett Robb, treasurer; Dud Kersey, pledge trainer, and Jack Sinclair, sergeant-at-arms.

Other new officers include intramural director, Pat Halloran; historian, Fred Elsasser; publicity, Frank Vigneri and IFC representatives, Dud Kersey and Pat Halloran.

Gidley Elected Prexy

Steve Gidley was elected the president of Watersports Club. Serving as the new vice-president is Frank Vigneri, and secretary, Mary Burke.

The Gateway extends its St. Patrick's Day greetings to all its readers. Little Kelly O'Day holds the traditional Irish message—"Erin Go Braugh," which means "Ireland Forever." And they don't come much more Irish than that!

Social Calendar

March 16—Greek Week Banquet
March 23—Shamrock Shuffle TGIF Dance

April 14—University Theater

Blackwell to Speak

Dr. J. Victor Blackwell, chairman of the art department of the University of Omaha, will address the Nebraska Art Teachers Association at its annual meeting in Lincoln March 30, 31.

Dr. Blackwell will speak Friday afternoon (Mar. 30) on "Art Appreciation on the Secondary Level."

Pageant Offers Opportunities

By Marilou Thibault

As Nebraskans we should be proud of the beauty and talent of our young women; young women who have established themselves in the front ranks of many fields of endeavor, be it education, business, politics or entertainment.

To many of these women, the threshold of opportunity is presented through participation as contestants in our local pageants.

The Miss Omaha Pageant is established for developing the talents of these young women, thereby broadening their personality, poise and integrated citizenship.

Young women who accept the challenge of the coveted title of Miss Omaha must be between the ages of 18 and 28, single, must possess personality, poise, intelligence, charm, talent and beauty of face and figure.

Each year the Miss Omaha Crown grows in splendor as a new queen adds to it her own measure of grace and accomplishment.

Many of Omaha University's students have already added to the sparkle and shine of this crown: Jan Moravec, Wannette Bush, Betty McMichael, Kathy Faulk, Judy Boner, Karen Rasp, Janet Gibson, Sandy Staub, Beth Trickett and many others.

"I've had a wonderful time. You can, too!" announced Jan Moravec, Miss Omaha of 1961 and a member of Alpha Xi Delta.

This invitation is extended to all girls at OU as Jan's reign will be coming to an end with the crowning of a new Miss Omaha of 1962 the evening of April 8 at the Omaha Playhouse.

There is still time to sign up for the preliminaries of the Miss Omaha Pageant; the dates are Saturday, March 17, and Saturday, March 24.

The preliminaries will be held both dates at the Omaha Junior Chamber of Commerce, 108 S. 18th Street. Call 341-1234 and ask for Mrs. Evelyn Deats for information.

Chi Omega's Host Shamrock Shuffle

Chi Omega will entertain all sorority and fraternity members at the 13th annual Shamrock Shuffle March 23 from 9 p.m. to midnight.

Merle Reiff will be mistress of ceremonies for the dance at the Student Center ballroom. Entertainment will include a skit and a vocal quartet.

Honorees will be six Chi Omega "knights." They are John Hofschire, Lambda Chi Alpha; Bruce Olson, Pi Kappa Alpha; Vince Kotlar, Sigma Phi Epsilon; Lynn Jefferies, Tau Kappa Epsilon; Bob Emmons, Theta Chi and Paul Blazeovich, "O" Club.

The dance following a St. Patrick's Day theme, will feature the Carl Jay orchestra.

General chairman and assistant chairman of the dance are Phyllis Taylor and Sherie Humphrey. Other assistants include Mary Johnson and Merle Reiff, entertainment; Patty Baker, flowers; Shirley Johnson, publicity; Nancy McGee and Marcia Cathcart, display and Carol Thomsen, invitations.

Sponsors will be Capt. and Mrs. Joseph Davis, Dr. and Mrs. Aldrich Paul and Dr. and Mrs. Ralph Wardle.

Alpha Xi Formal Set for March 24

Alpha Xi Delta's annual Rose Formal will take place March 24, in the Town House Ballroom.

A pre-dance party will be held from 5 to 6:30 p.m. at the Bachus residence, 1134 S. 97.

Announcement of new officers and sweetest and meanest actives and pledges will be made during the program.

Bob Striegel's combo will play for the dance following the dinner.

Sponsors for the evening Mr. and Mrs. William T. Utley, Mr. and Mrs. Ronald Pullen.

An Insurance Company Career?

Talk it over with an E.M. interviewer

One of the major industrial insurance companies in the United States, Employers Mutuals of Wausau offers interesting, rewarding careers to hundreds of college men and women.

Some who joined us majored in insurance, but most were unaware until they talked with our interviewers that their education could be applied and their aims realized in an insurance company.

Talk with our representative about the opportunities we can offer at our home office and in more than 100 cities, large and small, throughout the country.

Our representative will be here Friday, March 23, to interview senior men for positions as claim adjusters and underwriters and senior women for audit reviewer positions. Further information can be obtained from the placement office.

In Intramurals ... Crew and Fijis Battle For Top Bowling Spot

The Crew and the Fijis continued to battle for the top spot in intramural bowling at the West Lanes Wednesday afternoon.

Both are in a tie for the lead with 53 points after Wednesday's action.

Fiji, first last week, could manage only one point from the Lams, while the Crew split with Lambda Chi (1).

The Pi Kaps won three points from Tri Chi to hold on to the third position.

The Lams in taking three from Fiji moved up a peg to fourth place.

Individual highs for the afternoon went to Larry Herman and Gary Groberg.

Herman posted the high game with a 244. Groberg had the high series posting a 618.

The Crew pulled down the high team honors with a 757 game and a 2125 series.

Match Game Bowling

The roll-off or the 1962 National Collegiate Individual Match Game Championship will be held at the West Lanes Friday, March 1, at 1 p.m.

The top two in this roll-off will be given an expense paid trip to Chicago to roll in the national finals in April.

Entry fee is \$2.85 per person for the eight games.

The eight games will be bowled on 16 alleys with every game being rolled on different alleys.

The tournament is open to all male undergraduate students carrying 12 hours or more.

He must be in good scholastic standing as determined by the University.

Those wishing to enter the

roll-off should sign up in the intramural office, Room 240 of the Administration Building.

The deadline for signing up is March 29 at noon.

Postal Bowling

Omaha University finished second in the North Central Conference of the National Intercollegiate Bowling Association's Postal League.

St. Mary's College topped the league with 28 wins and eight losses. OU finished with a 21-15 record.

St. Cloud College finished third and Tarkio College fourth.

Athletic Department Secretary Necessary Coaches' Assistant

By Tom Ash

It's the people behind the scenes that make an organization run smoothly.

One of those never-heard-of but necessary people, is Marilyn Hamilton. She is the Athletic Department secretary.

Although she says, "All I do is write letters and answer the telephone," all the coaches will testify that she does much more.

Mrs. Hamilton has been married to her husband, Bruce, for 15 years and has two children, David, 12, and Craig, 8.

She started working in the Athletic Department in July last year, but has been with the Uni-

versity for the past three years. Her previous duties were with the Steno Bureau.

For outside activities, the native Omahan said she spends every summer water skiing every chance she gets. She and her husband are the proud owners of a 17-foot boat with an 80 horsepower motor.

She also said she gets a big kick out of working with the coaches. "They are an entirely different type of people." She added that they are much more interesting than ordinary businessmen and they are a "very congenial and cooperative group."

Besides her Fieldhouse duties, she is also secretary for the Faculty Athletic Committee.

Leave your blood at the Red Cross and not on the highway.

Hamilton

Indian Mentioned On CIC Cage Club

Omaha University's Joe Neuberger salvaged a little glory out of a somewhat otherwise dismal season by being picked for honorable mention on the 1961-62 CIC All-Star basketball team.

The 5'10" junior received a similar honor last season.

OU's other representative on last season's All-Conference team, Bruce Hunter, was not honored this year.

Neuberger, a guard, was an outstanding playmaker and scored well with a deadly two-hand set shot. Joe often held the youthful Indians together when jitters seemed about to get the best of them. His playmaking and ball hawking in the Pittsburg State game at home was chiefly responsible for the Indians' upset victory.

The Creighton Prep grad will be back next year for his fourth letter and with prospects for a winner bright, maybe Joe can play on a winning OU basketball team before he graduates.

OU's Yelkin Attending NAIA Baseball Meet

Omaha University Athletic Director Virgil Yelkin is in Kansas City attending the National Association of Intercollegiate Athletics coaches meeting where he will step down as director of the NAIA baseball tourney.

At the meetings he will also outline plans he has laid for the 1962 baseball tourney. Upon resignation Yelkin will take over as director of the National Collegiate Athletic Association baseball tourney held here in Omaha in June.

Captain Joseph Davis of the AF-ROTC has been guiding the baseball squad in its work-outs during Yelkin's absence.

Second baseman Bill Watchler became a casualty Tuesday in the first day of situation drills conducted on the Fieldhouse diamond.

Watchler twisted his left ankle going back into third base in a run-down play. He will prob-

ably be sidelined the rest of the week.

Veterans Mike Coughlin and Ken Allen returned to the squad after suffering back and knee injuries in last week's practices.

Vets Don Gruidel, Jack Vaccaro and Ray Fehrman also missed a couple of days of practice with the flu.

Yelkin has divided the squad into two teams to speed up work-outs and get the squad ready for intersquad games when the baseballers finally get outdoors. One club is composed mostly of veterans and lettermen with the other made up of newcomers and freshmen.

OU Wrestlers In NAIA Meet

Coach Al Caniglia, along with a full team of eight matmen, departed from Omaha yesterday morning enroute to Winona, Minn., where they will compete in the NAIA wrestling championships which are scheduled to run through Saturday night.

Caniglia has high hopes of a strong finish in the meet in which nearly 100 schools are expected to participate.

Preliminary matches begin this afternoon at 2 o'clock.

Indian wrestlers entered in the tournament are:

123 lbs. Jim Fuxa
130 lbs. Louie Miloni
137 lbs. John DeGeorge
147 lbs. Jim Howard
157 lbs. George Crenshaw
177 lbs. Mel Masek
191 lbs. Art Ferguson

Best bets are George Crenshaw, unbeaten 167-pounder who will compete at 157, and Louie Miloni, a tough 137-pounder who will drop to the 130-pound class.

Two other Indians with better-than-average ability could finish high in the listings. They are Art Ferguson, a top heavyweight, who will compete at 191, and Jim Howard, a consistent performer at 157, who will drop to 147 for the championships.

Ferguson, Howard and Miloni are seniors. Crenshaw and Masek are juniors, Backes, a sophomore, Fuxa and DeGeorge are freshmen.

The combined 1961-62 records of the Omaha entrants total 35-15-2.

The University of Omaha hasn't had a winning basketball season since 1954-55 when Coach Virg Yelkin's Indians had a 15-10 record.

Women P.E. Students to Attend Convention; Irwin Plans Event

By Carol Vetter

Expectation and preparation aimed at the enjoyment of the Central Association for Health, Physical Education and Recreation Convention in Omaha next week can be keenly felt in the women's physical education hut.

Under the guidance of Sharon Irwin, student representative of the Student Section at the convention, the Majors and Minors are donating time and energy in planning the student program.

The convention will last from March 21-23. Most of the Student Section activities will take place on the 22nd and 23rd. A Student Hospitality Room at the Sheraton-Fontenelle Hotel will be open from 9 a.m. to 6 p.m. on the 22nd and 23rd. The Hospitality Room will serve as a convenient location for relaxation and informal exchange of ideas between students attending the convention. Delegates are expected from most of the schools in the Central District.

Among the activities planned for the students will be bowling at the Music Box, swimming at the Jewish Community Center, and dancing at the Sheraton-Fontenelle.

Dr. Anita Aldrich, President of the National AHPER, will discuss "Professional Challenge to the Student" at the Student Luncheon on Friday. Sharon Irwin will preside over the luncheon.

Dr. Catherine Allen from Tufts University in Medford, Mass., will speak on "Philosophy of Recreation for This Decade" at the Student Section Meeting on

Friday. Both of these speakers are highly respected in the field of physical education.

The convention will feature many other nationally known men and women in physical education and outstanding exhibits, demonstrations and entertainment for members of the AAHPER.

Unaffiliated defeated Zeta Tau Alpha by a score of 36-10 in Women's Recreation Association basketball competition last Wednesday. The Unaffiliated squad was forced to play with only five players during the second half.

The two other games scheduled for last week resulted in forfeits.

Fischer Issues Call For OU Golf Hopefuls

Coach Ken Fischer has requested that anyone interested in playing golf this spring contact him in the fieldhouse as soon as possible.

He says that practice is already underway, and the first match is April 9.

The schedule:
April 9—Nebraska Wesleyan at Omaha
April 12—Drake at Omaha
April 17—Nebraska University at Omaha
April 19—Midland-Dana at Omaha
April 23—Creighton at Omaha
April 27—Doane-Hastings at Hastings
April 28—Kansas State at Manhattan
April 30—Creighton at Creighton
May 5—Washburn at Topeka
May 7-8—CIC Championships at Topeka
May 14—Nebraska University at Lincoln.

Irwin

Outdoor Track Men Workout In Fieldhouse

After a two-week layoff from indoor track, the track team began official workouts Monday at 2:30.

As soon as the weather permits, the trackmen will move outside. At present the team is working out in the Fieldhouse and is sharing it with the baseball team. The baseball team takes over the Fieldhouse after the track team is finished at 4 o'clock.

There are about 20 men check out. Some of these men must work out on their own whenever they are free because their class schedules conflict with the 2:30 practices.

Coach Lloyd Cardwell predicts that his relay teams should be very tough after a little work.

Cardwell plans on attending the Kansas State Invitational Indoor Relays to be held March 24 in Manhattan. He said that he will enter Roger Sayers and possibly Jim Foster. He has not decided upon any other entries at present.

At least 35 local high schools are expected to enter in OU's high school invitational track meet to be held March 30-31.

April 6 (Friday), Morningside College, at Omaha.
April 11 (Wednesday), Midland Relays, there.
April 14 (Saturday), South Dakota University Invitational, there.
April 18 (Wednesday), to be filled, Omaha.
April 20-21 (Friday-Saturday), Kansas Relays, Lawrence.
April 24 (Tuesday), Wesleyan-Doane, Lincoln.
April 27-28 (Friday-Saturday), Drake Relays, there.
May 2 (Wednesday), Washburn, Omaha.
May 5 (Saturday), Howard Wood Dakota Relays, Sioux Falls.
May 9 (Wednesday), Doane Relays, there.
May 11-12 (Friday-Saturday), CIC Championships, Omaha.
May 15 (Tuesday), Midland-Dana, Fremont.

Beyond—30—

By Ken Zimmerman

What's the weird world of athletics coming to?

I found myself asking that question after reading yesterday's Morning World-Herald sports section and viewing it in its entirety.

It presented a fascinating study in the evolution of athletic competition since the days of football's home-grown amateurs and basketball's underhanded set shots.

Perhaps the turning point was the day college powers discovered that national prestige earned on the football field far outshines that in the classroom.

That undoubtedly was the origin of problems which have prompted those old reliable "informed sources" to predict that Colorado University Grid Coach Sonny Grandelius will be fired tomorrow.

The story, prominently displayed in two-column type, probably surprised many fans because of Sonny's record at Boulder.

Instead of a period of winless seasons as usually precedes such a move, Grandelius led the Buffs to the Big Eight title and an Orange Bowl victory.

But Sonny was apparently operating with a "slush fund" of "between four thousand and 25 thousand dollars," the "informed sources" report.

And the National Collegiate Athletic Association is supposed to have caught him at it.

"John Crookman has resigned the Abraham Lincoln (high school) coaching post," the story began.

A couple paragraphs later: "Crookman claims that AL is playing in 'major league' circles with 'minor league' facilities and participation."

I couldn't help but wonder if maybe the other local high schools aren't operating with a "slush fund" and carrying on an active recruiting program among the grade schoolers.

But all the news wasn't on the football front. Last week's state basketball tourney at Lincoln was still making headlines.

"Police will be on hand to maintain silence among spectators at the formal hearing on Tech High's protest regarding the championship game."

Gregg McBride devoted his Thursday column to that officiating dispute. He told of a fan who, after the game, suggested "doing away with all basket ball officials and letting the kids play unmolested."

Gregg's reply was that such a move would "certainly assure one helluva game."

Gregg, ol' boy, I think it's already become that.

Read the small item which appeared next to your column. It reported that Wilt Chamberlin, by hitting a meager 34 points Wednesday night, stretched his season total to more than four thousand. That, of course, was aided by the game last week when he dropped a cool one hundred through the nets.

Not too many years ago it took an entire team four games to attain such a total.

And not too many years ago—two to be exact—Omaha U. was playing two games a year with Creighton.

The lead story yesterday told of tonight's NCAA tourney game between Creighton and Cincinnati, currently ranked number two in the nation.

It reminded me of a column I wrote two years ago as Gateway sports editor. I had the audacity (and was strongly criticized in some corners) to suggest that perhaps Creighton was getting a little out of the OU class and that it might be wise to drop the series.

There were many who disagreed but then it's a changing world in sports and you never know what to expect.

CHEVROLET CARS FOR EVERY FAMILY, EVERY BUDGET, EVERY TASTE

Chevrolet Want to pull out all stops—except price? The Jet-smooth Chevrolet serves up spacious, gracious interiors, Body by Fisher craftsmanship, Jet-smooth ride, new V8 vinegar or 6 savings—and more. On the ferry: an Impala Sport Sedan.

Chevy II Hungering for a car that's lovely, lively, easy to park and pay for? Chevy II is all that, all right—and also winner of Car Life magazine's award for Engineering Excellence! Parallel to the shore: a Nova 400 4-Door Station Wagon.

Corvair If you spark to sporty things this one ought to fire you up but good. With the engine weight astern, the steering's as responsive as a bicycle's and the traction's ferocious. As for the scat—wow! At the ramp: the Monza Club Coupe.

See the new Chevrolet, new Chevy II and new Corvair at your local authorized Chevrolet dealer's
